Title of the Activity:	Guest Sessions: "Emerging Technologies In Healthcare".
Day & Date:	19 th Oct-2024 (Saturday)
Category of Activity:	Curricular/Co-Curricular/Extra-curricular activity
Organized Under:	IQAC, NDLI, 4 th Dimension Lecture Series
Objectives:	To explore the impact of emerging technologies in healthcare and their role in improving patient care, diagnostics, and operational efficiency.
Level:	Institute/City/State/National/International
Name, Organization and Designation of Expert	Mr. Prashant Danekar Research Scholar
Number of students benefitted	130
Summary report:	We had an insightful session on Emerging Technologies in Healthcare highlighted key advancements transforming the healthcare industry. Technologies such as Artificial Intelligence (AI), telemedicine, wearable devices, and robotic-assisted surgery are improving diagnostics, patient care, and operational efficiency. AI and machine learning are being used for predictive analytics and personalized treatment, while telemedicine enhances remote care. Wearable devices enable continuous health monitoring, and robotics improves precision in surgeries. Other innovations, like 3D printing, block chain for secure patient data, CRISPR gene editing, and virtual reality (VR) in medical training, are reshaping healthcare delivery. The session underscored the need for healthcare professionals to adopt these technologies for enhanced patient outcomes.
Outcome:	Students understood how emerging technologies like AI, telemedicine, wearable devices, robotics, and VR are revolutionizing healthcare by enhancing diagnostics, patient care, and operational processes, while also recognizing the importance of staying updated with these advancements to improve future healthcare delivery.
