Title of the Activity:	Guest Sessions: "The Circular Economy: Reimagining the Supply Chains for a Sustainable Future".
Day & Date:	31 st August-2024 (Saturday)
Category of Activity:	Curricular/Co-Curricular/Extra-curricular activity
Organized Under:	IQAC, NDLI, 4 th Dimension Lecture Series
Objectives:	To explore how circular economy principles can transform supply chains for sustainability, resource efficiency and waste reduction.
Level:	Institute/City/State/National/International
Name, Organization and Designation of Expert	Prof. Swapnali Jadhav Assistant Director Dr. D.Y. Patil Vidyapeeth, Pune
Number of students benefitted	111
Summary report:	A session was delivered by Prof. Swapnali Jadhav, explores the transformation of traditional linear supply chains into circular models that prioritize sustainability, resource efficiency, and waste reduction. In a circular economy, materials are reused, recycled, and repurposed, extending product life cycles and minimizing waste. This approach helps reduce the environmental impact of production and consumption, while also creating economic opportunities and fostering innovation. The session encourages businesses to redesign their processes, focus on product longevity, and integrate sustainable practices to build a more resilient and regenerative economic system.
Outcome:	Students understood how adopting circular economy principles can lead to sustainable supply chains, reduced environmental impact, and innovative business opportunities.

Key Circular Economy Principles Suggested by ANSL

Reduce Waste

- 1. Minimal Packaging:** ANSL's focus on packaging with self-healing products helps reduce transportation-related emissions and waste.
- 2. Repaired Products:** The emphasis on repaired ways to utilize products like shoes and furniture for creating sustainable products, reducing waste.
- 3. Packaging Reduction:** ANSL has implemented strategies to reduce packaging waste, such as using recyclable materials and optimizing packaging sizes.
